Dear Josh,

I went camera shopping for you. The best buy seems to be the Voigtlander Vito. It is a new camera and is being sold out cheaply since a newer model with built-in flash is coming out. It had sold for \$55. It is now \$34⁵⁰ + \$6.75 for a case if you like one. It has a \$35 lens of good design and a first class shutter. It is very compact, light, and has the right "feel." I think it a much better buy than the Kodak Pony.

You can order it by mail. I enclose a card from a salesman who is even a Wisconsin alumnus.

I have written to Hesby, Friegman, Bertani, and Muller. I'll let you know as soon as I hear from them regarding arrival times, etc. I have asked them to take the 6⁴⁵ pm Mil. Rd. train.

Satarjet has not called yet.

Szilard has been away and he returns Monday.

Karen
